31 Years of Innovation, Sincerity & Hardwork

VISION and MISSION

Since their inception three decades ago, Kakatiya schools have been making accomplishments which are par excellence in our society. Our schools have become known for creativity, ingenuity, diligence and industriousness.

Our schools were the forerunners in shaping the intellectual and emotional character of students who would later play highly significant and productive roles in their careers thus contributing to the growth of our nation.

In order to fulfill my dream of bringing world class education to the student community, I have come up with the idea of launching a new CBSE school, affiliated to the Central Board New Delhi.

Learn to Excel is our Philosophy that has influenced our pedagogy, selection and in-house training of our teachers and their continuous professional development program. We want our children to make successful careers, become exceptional professionals of global standards and above all, live as good human beings. We have faculty sourced from different states of India with special emphasis on national teacher education colleges of great prestige and reputation.

It is my promise that we shall provide education of exceptional standards which will be even better than that being offered by the schools in district headquarters.

I profusely thank parents, friends, well wishers and ardent supporters who have been with me throughout my successful journey in reaching the pinnacles of success.

Avirineni Sudhakar Rao
Secretary & Correspondent

SmartClassrooms

Education with Digital Board

Well ventilated and spacious classrooms with
Smart & Interactive Panel Boards

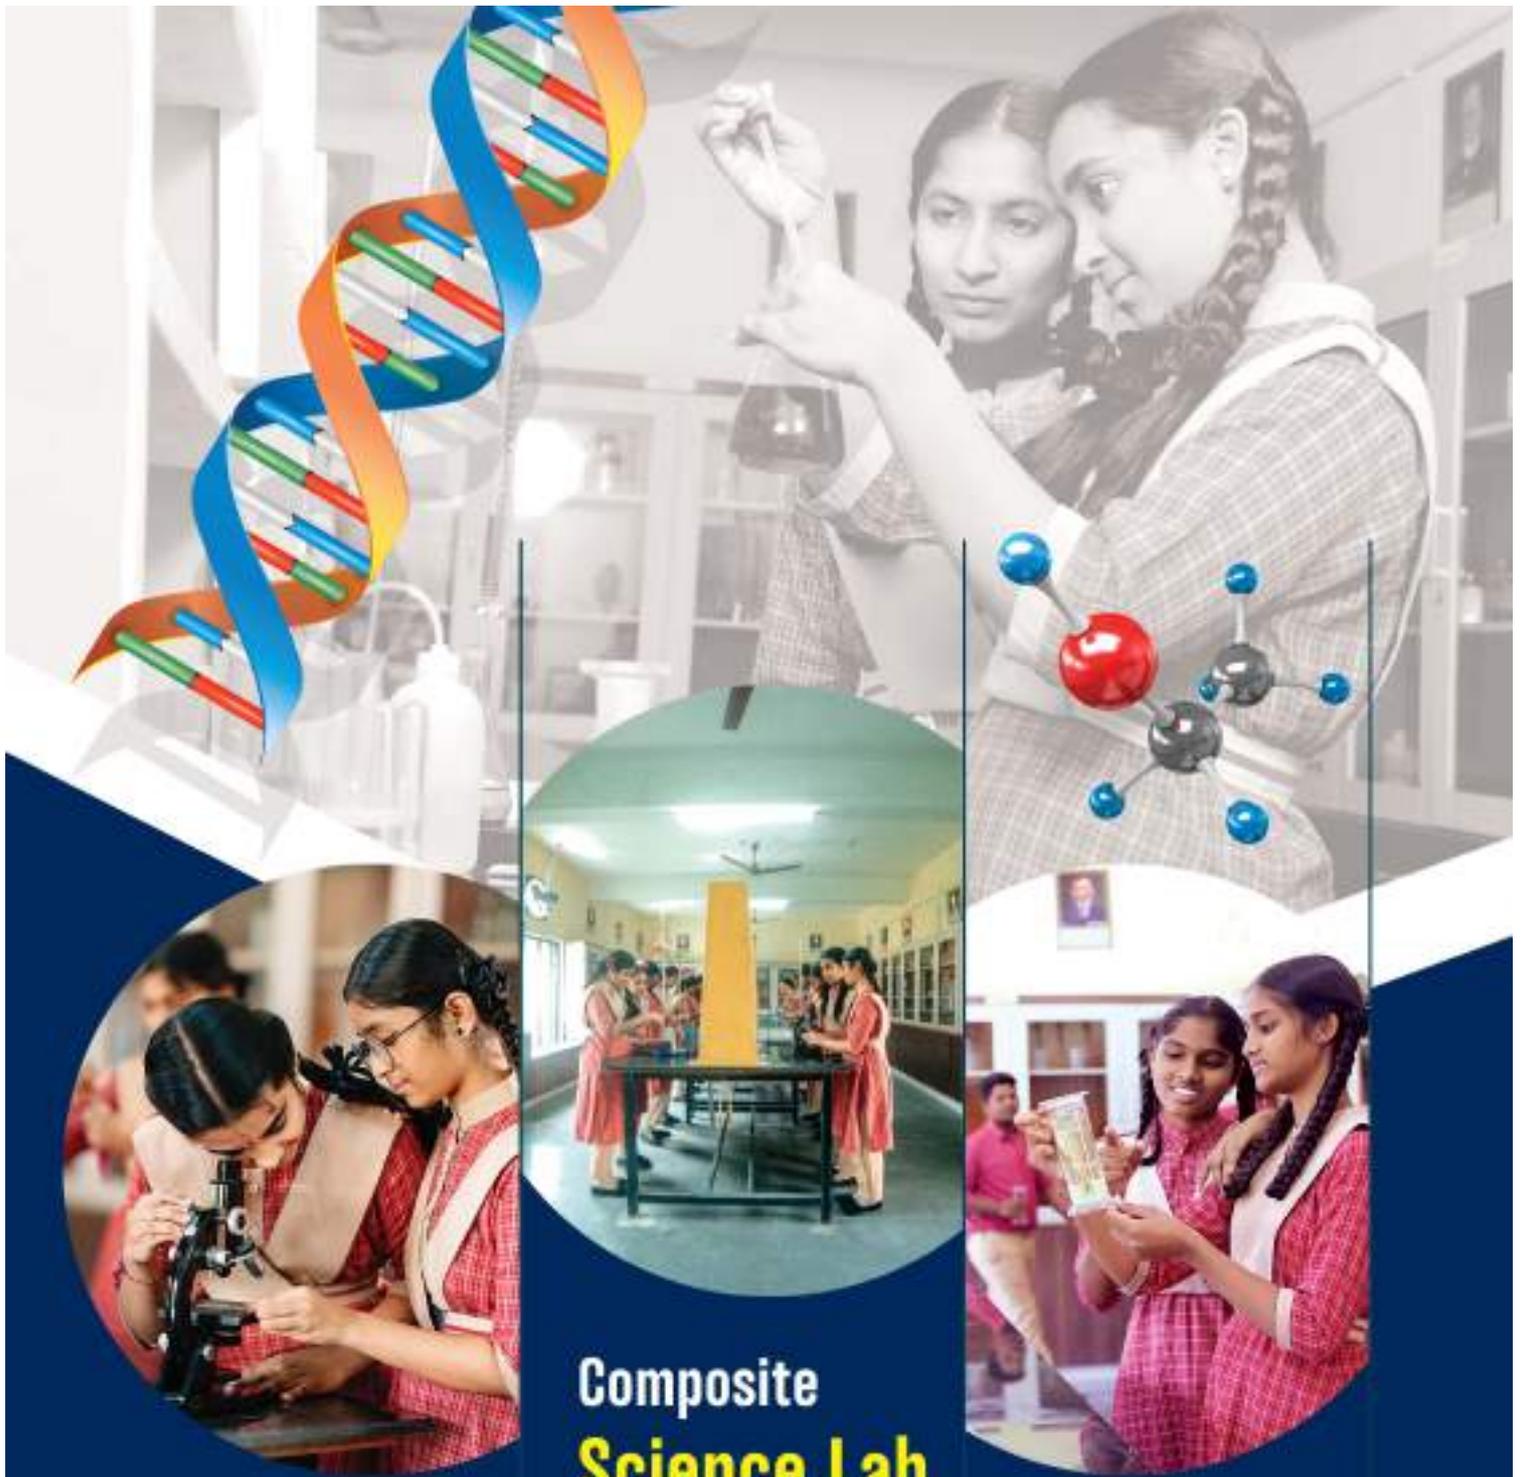

computerlab

We have equipped our computer laboratory with highly advanced and latest software and hardware. Our laboratory will go a long way in fulfilling the norms of CBSE and will enhance the skills of our children to develop competitiveness of the highest order in the field of IT and ICT.

Composite Science Lab

“ Children of Kakatiya enjoy open access to our integrated science laboratory wherein they can develop scientific temper by performing experiments practically. ”

Spacious and well equipped with latest equipment facilitate learning by doing...

mathslab

Our Mathematics laboratory promotes, fosters and enthuses students to hone their skills of computation to make them top order geniuses and wizards.

Library

knowledge hub

We have stocked our library with books of a wide range of subjects : Reference books and a number of books to ignite the curiosity of children and to satisfy their thirst for knowledge have been provided.

Rich collection of books,
on **various educational subjects**

EXTRA CURRICULAR ACTIVITIES

Kakatiya
Kids
-a play-way zone

Education here, at its foundation level, is taught through play-way method. It ensures the inculcation of right skills at the right age in the right manner.

Story telling, making blocks, shapes, solving puzzles, identifying pictures, lots of dance, songs, crafts are a few of the activities of our play way method of teaching.

WE NURTURE AND NOURISH young kids

We promote in kids the highest order of sportsmanship and a spirit of healthy competitiveness. We have a team of trained PETs who are as well able sports persons of meritorious performance at various levels..

INDOOR GAMES

OUTDOOR GAMES

We have a vast ground which has well laid out courts for volley ball, basket ball, foot ball, kho-kho, kabaddi, hockey and various Athletic activities.

My Dream... My School
